PRESS RELEASE

XandMail reinforce its presence at Brazil with the signature with a new partner WebNow

WebNow, a hoster at Brazil, selected XandMail products to propose a value added solution

Paris, France – May 31, 2007 –XandMail, the communication solutions provider today announced its selection by Webnow, a hosting provider at Brazil for its Push Mail Solution.

Already used by others customers on other aeras, specifically designed for the consumer and SOHO markets, XandMail Push Mail is a carrier-grade solution which enables allows to the user to receive on its mobile all Emails he wants. The solution empowers even the simplest mobile phones with a complete range of push options (through MMS, SMS or WAP push) for any webmail account (Yahoo!, Gmail, Hotmail...) or any POP3 or IMAP4 custom account. Push Mail Solution allows users to receive its Emails on different ISP, to read it, to answer and to forward it on mobility.

Webnow propose now the solution on hosting solution for the Brazil market.

“We are happy to be selected by a new partner at Brazil where we have already great customers. We reinforce again then the list of our partners which confirm our products strategy to propose solutions Time To Market. With Webnow as hoster and its position on the market, we’ll be able to reach new outlets.” declares Thierry GRILLOT, CEO at XandMail.

“With XandMail Push Mail Solution, we found a very simple solution and can be adapted to the different markets with its possibility to delivery the Emails through different ways SMS, WAP Push or MMS. The knowledge of user experience of XandMail and its strategy for next years we are sure to select the good partner for a long term solutions ” adds Mr João Marigonda CEO at Webnow.
